PROFESSIONAL EXPERIENCE

Senior Banking Alliance Executive

Oct 2025 - Present

Primasoft Technology EST | Dubai, UAE

- Onboarded 50+ merchants and managed documentation and operational requirements for 100+ merchants, covering KYC verification, compliance review, document validation, activation and ongoing merchant support.
- Collaborated with multiple TSPs, PSPs, banking partners, merchants and internal stakeholders on onboarding, payment system integration and operational issue resolution.
- Reviewed merchant and partner documentation for completeness, data accuracy, regulatory alignment and internal policy compliance before submission and activation.
- Prepared and automated MIS reports, merchant trackers, documentation workflows and operational dashboards using Excel, Power Query and VBA.

Senior Assistant / Executive

Oct 2023 - Aug 2025

Cameo Corporate Services Ltd | Registry and RTA Operations

- Handled 70+ capital market assignments, including 45+ IPOs and 25+ other issues covering Rights Issues, Buybacks, NCDs, Listing Offers, Private Placements and Call Money activities.
- Worked on Main Board IPO operations for Mukka Proteins Limited and Tolins Tyres Limited, covering bid and transaction validation, technical rejection analysis, allotment processing, reconciliation, settlement and investor servicing.
- Handled additional IPO assignments across Book Building and Fixed Price issues, covering issue processing from bid validation through allotment and post issue reconciliation.
- Validated BSE and NSE bid and transaction data against bank certificates, schedules and internal records to identify discrepancies and ensure accurate allotment and settlement processing.
- Prepared and submitted monthly MIS reporting for SEBI covering bid activity, issue processing, allotment status and operational activities.

Executive, Operations

Apr 2022 - Sep 2023

Computer Age Management Services Ltd | Repository Operations

- Handled Digital Unclaimed operations for financial institutions including Aditya Birla, HDFC and Max Life for approximately 7 to 10 months, researching customer and nominee records and validating details for eligible claims.
- Processed 100+ Max Life FATCA and name change cases per day, performing KYC validation, customer record verification, documentation review, data updates and quality checks.
- Managed attendance and workforce coordination for a 20 to 30 member Max Life operations team, preparing attendance and operational MIS.
- Prepared MIS reports, campaign reports and data quality summaries for management review and performed operational quality control.

PROJECTS & AUTOMATION SOLUTIONS

Excel VBA | High Volume File Processing Automation

- Developed Excel VBA automation to process and consolidate 400+ TXT and CSV files, covering file conversion, data consolidation, automated formatting and multi sheet workbook generation.

Automated Mail Merge & Bulk Document Generation

- Built an Excel and Word based automation solution capable of generating 500+ personalized letters in a single run from structured source data.

HRMS & Business Web Application Development

- Developed business applications covering employee and operational workflows, authentication, database integration, UI and UX development, deployment and version control using GitHub and Supabase.

Analytics & Business Intelligence Portfolio

- Created 20+ analytics projects using Power BI, DAX, Power Query and Advanced Excel across Payment Gateway, Banking, Fraud and Risk, Finance, HR, Supply Chain, Aviation, Hospitality, Manufacturing and E Commerce domains.
