PROFESSIONAL SUMMARY

Banking, Investment Banking, and FinTech Operations professional with hands-on experience across capital markets, corporate actions, settlement and reconciliation, payment gateway operations, merchant onboarding, and KYC/AML compliance. Builds on this operational foundation with strong Business Intelligence and Data Analytics capability, using Power BI, DAX, Power Query, and Advanced Excel/VBA to convert transaction and operational data into executive dashboards, KPI reporting, and MIS insights. Combines real banking and payments domain expertise with the ability to design automated reporting and decision-support tools, positioning for Business Intelligence, Banking Analytics, FinTech Analytics, and Operations Analytics roles. Experienced in stakeholder coordination across banks, PSPs, and internal teams, with a consistent focus on data accuracy and operational visibility.

CORE SKILLS

Banking & Investment Banking: Investment Operations, Capital Markets, Corporate Actions, IPO Processing, Rights Issues, Buybacks, Listing Offers, Settlement, Reconciliation, RTA Operations

FinTech & Payments: Payment Gateway Operations, PSP/TSP Coordination, Merchant Onboarding, Payment Operations, KYC/AML, Banking Alliance Management

Business Intelligence: Power BI, DAX, Power Query, Data Modeling, Star Schema, Data Visualization, KPI Development, Dashboard Development, Data Storytelling

Data Analytics: Data Analysis, Data Cleaning, Data Transformation, Data Validation, Trend Analysis, Performance Analysis, Operational Analytics, Financial Analytics

Excel & Automation: Advanced Excel, Pivot Tables, Pivot Charts, VLOOKUP, VBA Macros, Excel Automation, Reporting Automation

Reporting & MIS: MIS Reporting, Management Reporting, Business Reporting, Performance Monitoring, Variance Analysis

Professional Skills: Stakeholder Management, Requirements Gathering, Cross-functional Coordination, Process Improvement, Quality Control, Documentation

PROFESSIONAL EXPERIENCE

Senior Banking Alliance Executive | Primasoft Technology EST

Oct 2025 - Present

- Develop and maintain operational and business reporting for banking alliances, merchant onboarding, KYC verification, compliance reviews, and payment gateway activities.
- Analyze onboarding records, documentation status, partner requirements, and operational issues to improve process visibility and support timely merchant activation.
- Coordinate with banks, Payment Service Providers (PSPs), TSPs, merchants, and internal stakeholders to gather requirements, validate information, and support payment-system integration.
- Review merchant and partner documentation for completeness, data accuracy, regulatory alignment, and internal policy compliance before submission or activation.
- Monitor partner activity, FinTech and payment-industry developments, and recurring operational issues to inform management reporting, stakeholder communication, and process improvement.
- Automate MIS reporting, documentation workflows, and dashboard preparation using Power BI, Advanced Excel, Power Query, and VBA.

Senior Assistant / Executive | Cameo Corporate Services Ltd - Registry & RTA

Oct 2023 - Aug 2025

- Processed core investment banking and capital-markets transactions covering IPO applications, Rights Issues, Buybacks, Listing Offers, Call Money, and Corporate Actions within a Registrar & Transfer Agent (RTA) environment.
- Analyzed transaction and operational data, processed customer fund movements, and reconciled settlement activity to maintain data accuracy and process control.
- Developed MIS reports and operational summaries to support performance monitoring, issue tracking, management review, and business decision-making.
- Validated transaction records, identified discrepancies, and coordinated with internal teams, customers, banks, and financial institutions to resolve exceptions and maintain compliant processing.

Executive - Operations | Computer Age Management Services Ltd - Repository

Apr 2022 - Sep 2023

- Performed KYC checks, customer-record updates, bank-detail verification, penny-drop validation, and final quality review across repository operations.
- Prepared and maintained MIS reports, campaign reports, operational dashboards, and data-quality summaries for performance monitoring and management reporting.
- Reviewed operational data for completeness and accuracy, conducted quality checks, and enforced adherence to service and processing standards.
- Led day-to-day team coordination and partnered with stakeholders to resolve data issues, improve reporting accuracy, and drive continuous process improvement.

BUSINESS INTELLIGENCE PROJECTS

Five selected projects demonstrating the ability to translate banking, finance, and operational business problems into Power BI dashboards and decision-support analytics.

Payment Gateway Operations Dashboard | *Power BI, DAX, Power Query, Excel*

Live Dashboard: payment-gateway-analysis.vercel.app/

- Business Need: Operations leadership required real-time visibility into transaction volumes, success/failure patterns, and PSP and bank performance across the payment gateway.
- Solution: Built an interactive Power BI dashboard modeling transaction, PSP, bank, and merchant data to monitor daily trends and surface operational issues.
- Key Analytics: Total Transactions, Successful Transactions, Failed Transactions, Success Rate, Daily Transaction Trends, PSP Performance, Bank Performance, Merchant Performance, Failure-Reason Analysis.

Banking Operations Analytics Dashboard | *Power BI, DAX, Power Query, Excel*

Live Dashboard: banking-operations-dashboard-ashen.vercel.app/

- Business Need: Management needed a consolidated view of customer, deposit, loan, and branch performance to support banking operational decisions.
- Solution: Developed a Power BI dashboard integrating customer, account, and branch data to track portfolio health and regional performance.
- Key Analytics: Customer Analytics, Deposit Analysis, Loan Portfolio Analysis, Account Balances, Loan-to-Deposit Ratio, Branch Performance, Regional Performance, Account-Type Analysis.

Corporate Finance, Budget & Business Intelligence Dashboard | *Power BI, DAX, Power Query, Excel*

Live Dashboard: finance-budget-analytics-dashboard.vercel.app/

- Business Need: Finance stakeholders needed unified reporting for revenue, profitability, departmental performance, cost control, and budget variance.
- Solution: Built a multi-page finance intelligence solution linking Date, Department, Manager, and Region data through a star-schema model.
- Key Analytics: Revenue, Profit, Expenses, Budget Utilization, ROI, Revenue and Profit Growth, Budget vs. Actual, Variance Analysis, Department and Regional Performance.

E-Commerce Analytics Dashboard | *Power BI, DAX, Power Query, Excel*

Live Dashboard: e-commerce-analytics-dashboard.vercel.app/

- Business Need: Leadership required a centralized view of regional sales, profitability, customers, order fulfilment, and payment-method performance.
- Solution: Built an interactive end-to-end dashboard using a star-schema model with fact, dimension, and custom date tables.
- Key Analytics: Total Sales, Total Profit, Orders, Customers, Profit Margin, Delivery Performance, Monthly Sales and Profit Trend, Order Status, Payment Method Distribution, Product and City Performance.

Manufacturing Operations Dashboard | *Power BI, DAX, Power Query, Excel*

Live Dashboard: manufacturing-operations-dashboard.vercel.app/

- Business Need: Management needed consolidated visibility into production, quality, inventory, cost, and regional plant performance.
- Solution: Developed a multi-page executive dashboard covering Production, Quality, and Inventory & Cost analytics using star-schema modeling and time-intelligence measures.
- Key Analytics: Production Volume vs. Target, Production/Operational Efficiency, Defect Analysis, Inventory Value, Production Cost, Scrap Cost, Quality Cost, Gross Profit, Regional/Plant Performance.

ADDITIONAL ANALYTICS PORTFOLIO

Additional interactive dashboards developed across Retail Sales, Hotel, HR, Supply Chain, Population/Government, Healthcare, Sales, and Business Budget Analytics using Power BI, DAX, Power Query, and Excel. Additional live projects are available through my portfolio and can be shared based on role requirements.
