Professional: Stakeholder Management, Requirements Gathering, Cross-functional Coordination, Process Improvement, Quality Control, Documentation

PROFESSIONAL EXPERIENCE

Senior Banking Alliance Executive | Primasoft Technology EST

Oct 2025 - Present

- Manage operational and business reporting for banking alliances, merchant onboarding, KYC verification, compliance reviews and payment gateway activities.
- Analyze onboarding records, documentation status, partner requirements and operational issues to improve process visibility and support timely merchant activation.
- Coordinate with banks, PSPs, TSPs, merchants and internal stakeholders to gather requirements, validate information and support payment-system integration.
- Review merchant and partner documentation for completeness, data accuracy, regulatory alignment and internal policy compliance before submission or activation.
- Automate MIS reporting, documentation workflows and dashboard preparation using Power BI, Power Query, Advanced Excel and VBA.

Senior Assistant / Executive | Cameo Corporate Services Ltd - Registry & RTA

Oct 2023 - Aug 2025

- Supported end-to-end capital-markets and RTA operations covering IPOs, Rights Issues, Buybacks, Open Offers, Listing Offers, Call Money and Corporate Actions.
- Processed and validated BSE/NSE bid, transaction and operational data against Bank Final Certificates, schedule data and internal records to support accurate allotment, non-allotment and settlement processing.
- Assisted in preparing and validating technical rejection reports, allotment-related data, issue-processing records and operational control reports.
- Processed customer fund movements and performed banking, settlement and transaction reconciliation, investigating mismatches and supporting timely resolution of exceptions.
- Prepared daily, weekly and periodic MIS reports, operational summaries and issue-tracking reports for performance monitoring, management review and decision support.
- Supported preparation and validation of data required for SEBI / Stock Exchange reporting and other regulatory or operational submissions.
- Coordinated with client companies, Lead Managers, banks, financial institutions, internal operations, IT and corporate-action teams to resolve processing issues and support timely completion of issue-related activities.
- Responded to investor/customer queries, performed quality checks on transaction and reconciliation data, and contributed to process improvement, reporting accuracy and operational control.

Executive - Operations | Computer Age Management Services Ltd - Repository

Apr 2022 - Sep 2023

- Performed KYC checks, customer-record updates, bank-detail verification, penny-drop validation and final quality review across repository operations.
- Prepared MIS reports, campaign reports, operational dashboards and data-quality summaries for performance monitoring and management reporting.
- Reviewed operational data for completeness and accuracy, conducted quality checks and supported adherence to service and processing standards.
- Coordinated day-to-day team activities and worked with stakeholders to resolve data issues, improve reporting accuracy and support continuous process improvement.

SELECTED ANALYTICS & AUTOMATION PROJECTS

Selected projects demonstrating how analytics and automation are applied to banking, finance and operational decision-making. Additional domain dashboards are available through the portfolio.

Payment Gateway Operations Dashboard | *Power BI, DAX, Power Query, Excel*

Live dashboard: payment-gateway-analysis.vercel.app/

- Built a centralized operational dashboard to monitor transaction volumes, success/failure patterns, PSP and bank performance, merchant performance and recurring failure reasons.
- Key analytics include Total Transactions, Successful/Failed Transactions, Success Rate, Daily Transaction Trends, PSP Performance, Bank Performance and Failure-Reason Analysis.

Banking Operations Analytics Dashboard | *Power BI, DAX, Power Query, Excel*

Live dashboard: banking-operations-dashboard-ashen.vercel.app/

- Developed a consolidated banking operations view integrating customer, deposit, loan, account and branch data for portfolio and regional performance monitoring.
- Key analytics include Customer Analysis, Deposits, Loan Portfolio, Account Balances, Loan-to-Deposit Ratio, Branch Performance, Regional Performance and Account-Type Analysis.

Corporate Finance, Budget & Business Intelligence Dashboard | *Power BI, DAX, Power Query, Excel*

Live dashboard: finance-budget-analytics-dashboard.vercel.app/

- Created a multi-page finance intelligence solution covering revenue, profitability, departmental performance, cost control and budget variance using a star-schema model.
- Key analytics include Revenue, Profit, Expenses, Budget Utilization, ROI, Revenue/Profit Growth, Budget vs Actual, Variance Analysis and Department/Regional Performance.

E-Commerce Analytics Dashboard | *Power BI, DAX, Power Query, Excel*

Live dashboard: e-commerce-analytics-dashboard.vercel.app/

- Built an end-to-end commercial analytics dashboard to monitor sales, profitability, customers, fulfilment, payment methods and product/city performance.
- Key analytics include Total Sales, Profit, Orders, Customers, Profit Margin, Delivery Performance, Monthly Sales/Profit Trends, Order Status and Payment Method Distribution.

Manufacturing Operations Dashboard | *Power BI, DAX, Power Query, Excel*

Live dashboard: manufacturing-operations-dashboard.vercel.app/

- Developed a multi-page executive operations dashboard covering production, quality, inventory and cost performance with time-intelligence measures.
- Key analytics include Production Volume vs Target, Operational Efficiency, Defect Analysis, Inventory Value, Production Cost, Scrap Cost, Quality Cost, Gross Profit and Plant/Regional Performance.

ADDITIONAL ANALYTICS PORTFOLIO

13+ interactive analytics projects developed across Retail Sales, Hotel, HR, Supply Chain, Population/Government, Healthcare, Sales, Business Budget and other business domains using Power BI, DAX, Power Query and Excel. Additional live projects are available through the portfolio and can be demonstrated based on role requirements.
